24.(Once Amended) A modular building structure according to claim 22 or 23, wherein

the service module has floor and ceiling cavities in which the mains service supplies are routed.

25. (Once Amended) A modular building structure according to claim 22, wherein one

building module is a dedicated plant room that feeds the mains supply service to the service

module.

26. (Once Amended) A modular building structure according to claim 22, wherein the

service module is sectional so that it can be extended or shortened to provide more or less

connection nodes as required.

27. (Once Amended) A modular building structure according to claim 22, wherein there

is provided a plurality of service modules, some modules being disposed in a direction transverse

to others.

28. (Once Amended) A modular building structure according to claim 27, wherein the

mains service is for waste disposal and each service module is provided with a holding tank that

is connected to a lavatory or wash area of an adjacent building module.

29. (Once Amended) A modular building structure according to claim 28, wherein

holding tanks of adjacent service modules are connected by a suction waste pipe.
